**Affiliated Monitoring Named Winner of
2020 TMA/SSI Monitoring Technology “Marvel” Award**

June 17, 2020, McLean, VA – The Monitoring Association (TMA) and *Security Sales & Integration (SSI)* Editor-in-Chief and Associate Publisher Scott Goldfine had the honor of presenting the 2020 **TMA/SSI Monitoring Technology “Marvel” Award** to New Jersey-based Affiliated Monitoring, Inc. virtually this morning for its AlertMessage and CareAlert products. Managing Director Mike Zydor accepted the award on behalf of winning company.

This award honors innovations in monitoring center technology. It is co-sponsored by TMA and *Security Sales & Integration (SSI)* and coordinated by the TMA Technology Committee.

The purpose of the Marvel Award is to provide recognition for monitoring centers creating and/or using cutting-edge technology and to raise awareness of these new technologies.

Learn more about the innovation technologies that Affiliated Monitoring and this year’s awards finalists, ADT, LLC, and COPS Monitoring, have engineered in the August 2020 issue of *SSI*.

###

About The Monitoring Association

The Monitoring Association (TMA), formerly the Central Station Alarm Association (CSAA), is an international non-profit trade association that represents professional monitoring companies, security systems integrators, and providers of products and services to the industry. Incorporated in 1950, TMA represents its members before Congress and regulatory agencies on the local, state and federal levels, and other authorities having jurisdiction (AHJs) over the industry. Learn more online at <https://tma.us/about-tma/>.

About Security Sales & Integration

“The #1 Technology & Business Authority Since 1979” reaches executive, sales & technical professionals who recommend, buy and/or install electronic security equipment, including video surveillance, access control, biometrics, IT networking, intrusion, fire alarm, home controls/automation plus other security products and services. Editorial features include commercial & residential product applications, technology updates, systems design installation techniques, sales & marketing case studies, statistical research and operation management.
