**Narowski and Raisch to Co-Chair TMA's  
Technology Committee**

**May 10, 2023, McLean, VA** – The Monitoring Association (TMA) is pleased to announce the recent appointment of Matt Narowski, Vice President of Operations, Security Central, and Rob Raisch, Chief Architect & Team Lead, Monitoring Integration, Simplisafe, Inc., to the volunteer position of co-chairs for its Technology Committee. Narowski and Raisch succeed longtime Technology Committee Chairs Steve Butkovich, CPI Security, and Sascha Kylau, OneTel Security, both of whom are moving into new leadership roles within TMA.

On his new appointment, Narowski remarked, "I'm deeply honored to have the opportunity to co-chair TMA's Technology Committee. The Committee's continued work ensures that TMA members have access to information regarding established and emerging technologies that are not always apparent without extensive research. I'm looking forward to exploring new technologies such as Generative AI and how related technologies can help bolster a central station's ability to add additional services, including video analytics, customer service interaction as well as a myriad of other opportunities."

"Our industry is on the cusp of enormous change and I'm excited for the opportunity to help our members navigate and understand the plethora of newly available technologies, while maintaining the highest quality of service for their customers," stated Raisch, adding, "From protecting oneself in the "Dark Forest" to the application of machine learning to incident analysis, I hope to shepherd the creation of knowledge resources of immediate and actionable value to all TMA members."

**About The Monitoring Association**

The Monitoring Association (TMA), formerly the Central Station Alarm Association (CSAA), is an internationally recognized non-profit trade association that represents professional monitoring companies, security systems integrators, and providers of products and services to the industry. Incorporated in 1950, TMA represents its members before Congress and regulatory agencies on the local, state, and federal levels, and other authorities having jurisdiction (AHJs) over the industry.
